Obtaining a
New Shed
Permit

How to
Make the
Process Go
Smoothly.

1 Apply for a Permit:

- Sheds of 100 sq. ft. or less **do not** require a permit.
- Provide the name, address and phone number of the property owner, the permit applicant and, if applicable, the contractor and/or plan preparer.
- Provide a project description including the size and location of the shed.
- If the contractor is a homeowner or individual contractor without Workers' Compensation Insurance, a Workers' Compensation waiver must be submitted.
- If the contractor has employees, a Certificate of Workers' Compensation Insurance, naming the City of Rochester as the certificate holder, is required.

You can obtain these forms at the Permit Office.

2 Follow Through with Application Requirements:

- Ensure that all work is performed as per the plans submitted with the permit application; and that no damage or encroachment occurs to adjacent property during construction.

3 Supply Additional Submissions:

- You must also include two (2) copies each of:
- An Instrument Survey Map of the property.
 - Construction details drawn to scale, including floor, wall and roof plans.

4 Pay the Required Fees:
